553.00-2209/2210 UNDERARM, DART SEAMS OPENING AND POCKET PRESSING - LEFT AND RIGHT

Electropneumatic pressing machine with steam heated shapes, movable, retractable and steaming upper plate fixed on a push-operated arm and vacuum lower plate with vertical movement. The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure
- * stable plate locking

The shape is provided with:

- * single vacuum on buck

553.00-6041/6042 LEFT AND RIGHT FOREPARTS UNDERPRESSING - MAN

Electropneumatic pressing machine with steam heated shapes, movable, retractable and steaming upper plate fixed on a push-operated arm and vacuum lower plate with vertical movement. The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure
- * stable plate locking

The shape is provided with:

- * single vacuum on buck
- * steaming

553.00-6153 FOREPARTS FINAL PRESSING

Electropneumatic pressing machine with steam heated shapes, movable, retractable and steaming upper plate fixed on a push-operated arm and vacuum lower plate with vertical movement. The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure
- * stable plate locking

The shape is provided with:

- * single vacuum on buck
- * steaming

553.00-6179/6180 RIGHT AND LEFT MAN FOREPARTS FINAL PRESSING

Electropneumatic pressing machine with steam heated shapes, movable, retractable and steaming upper plate fixed on a push-operated arm and vacuum lower plate with vertical movement. The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure
- * stable plate locking

The shape is provided with:

- * single vacuum on buck
- * steaming

553.00-7239 RIGHT & LEFT SIDE AND BACK FINAL PRESSING

Electropneumatic pressing machine with steam heated shapes, movable, retractable and steaming upper plate fixed on a push-operated arm and vacuum lower plate with vertical movement. The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure
- * stable plate locking

The shape is provided with:

- * single vacuum on buck
- * steaming

553.00-7271/7272

LEFT AND RIGHT SIDE AND BACK FINAL PRESSING

Electropneumatic pressing machine with steam heated shapes, movable, retractable and steaming upper plate fixed on a push-operated arm and vacuum lower plate with vertical movement. The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure
- * stable plate locking

The shape is provided with:

- * single vacuum on buck
- * steaming

553.01-7378/7366 Final ironing press for these suits

Electropneumatic ironing machine with manual/ automatic operation, steam-heated shapes, retractable movable upper plate mounted on a button-controlled arm.

Lower platform with movable vertical lift.

The machine is completed with:

Smoking top tray

Lower suction tray (No. 4 suctions with 2 pedals)

Adjustable ironing pressure.

Installation with centralized steam generator (boiler)

Building floor block

Electropneumatic device for adjusting the shading distance

Provision for connecting and activating a programming terminal

(Note: The use of one of the terminals listed in the accessories is mandatory; without it, the machine cannot function.)

Power supply: 1 + N ~ 50Hz 230V

553.37-9124 FLAT BONDING PRESS

Electropneumatic fusing machine with hiding upper and lower shapes and movable shapes.

The machine is featuring the following characteristics and is complete with:

- * electrically heated upper shape covered by fluorglas fabric
- * vacuum bottom shape for parts loading. Variable vacuum flow

Technical features:

- * 7" Touch Screen
- * adjustable pressing pressure
- * anti-repeater safety device

553.37-9125 FLAT BONDING PRESS

Electropneumatic fusing machine with hiding upper and lower shapes and movable shapes.

The machine is featuring the following characteristics and is complete with:

- * electrically heated upper shape covered by fluorglas fabric
- * vacuum bottom shape for parts loading. Variable vacuum flow

Technical features:

- * 7" Touch Screen
- * adjustable pressing pressure
- * anti-repeater safety device

555.04-0712 PRESSING OF EDGES, LAPELS AND BOTTOM

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device
- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buck
- * steaming

555.04-0806/8009 Sleeve Locking Press

Electropneumatic ironing machine with manual/automatic operation, movable upper plate mounted on a rocker arm, heated by steam and vaporizing. Fixed lower plate.

Supplied with:

Adjustable ironing pressure and shade height
Electronic hand protection device
Upper floor with unstable block

Power supply: 1 + N ~ 50Hz 230V

The shape provides: a single lower suction.

555.04-0993 UNIVERSAL SHAPE

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

* adjustable pressing pressure and adjustable sponging height

* electronic hand safety device

* upper plate with unstable locking

The shape is provided with:

* single vacuum on buck

* steaming

555.04-2164

SHOULDER SEAMS OPENING, RIGHT AND LEFT

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

* adjustable pressing pressure and adjustable sponging height

* electronic hand safety device

* upper plate with unstable locking

The shape is provided with:

* single vacuum on buck

555.04-2165 INNER SEAMS OPENING OF TWO SLEEVES+ PLEATING AND IRONING OF SLEEVE BOTTOM PART

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device
- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buck

555.04-2166 INNER SEAMS OPENING OF TWO SLEEVES

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device
- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buck

555.04-2172 RIGHT AND LEFT ARMHOLE SEAMS OPENING

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device
- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buck

555.04-4053 FINAL PRESSING OF INNER SLEEVES

Electropneumatic press with manual/automatic control, steam-heated forms, moving head and steam mounted on a lever-action arm. Fixed buck.

The machine is completed with:

- Adjustable pressing pressure and sponge height
- Electronic head protection device
- Plate locking: unstable

The form specifies:

- Dual independent lower vacuum cleaners

555.04-5002 COLLAR SEAMS OPENING AND UNDERPRESSING

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

* adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device
- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buck
- * steaming

555.04-5016 COLLAR FINAL PRESSING OF MAN JACKETS

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

* adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device
- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buck
- * steaming

555.04.7351 – Automatic Pressing Machine For Single Lapel

Electro-pneumatic pressing machine, manual or automatic operated, with steam heated shape fitted on movable arm. Possibility of adjustable sponging position with vertical approach. Top shape fitted with head safety device. The shape 7351 is designed for single lapel pressing.

555.04-8009

SLEEVE BLOCKING AND TOUCH UP

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device

- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buck

555.04-8022

ARMHOLE CREASING

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device

- * upper plate with unstable locking

The shape is provided with:

- * single vacuum on buckum on buck

- * steaming

555.04-8118 INTERMEDIATE POCKET IRONING PRESS

Electropneumatic ironing machine with manual/ automatic operation, rectangular shapes (308 x 236 mm) heated by steam, upper steaming and movable surface mounted on a rocker. Fixed lower stage.

The machine is completed with:
 Adjustable ironing pressure and shade height
 Electronic hand protection device
 Top shelf with unstable bloc
 Power supply: 1 + N ~ 50Hz 230V
 The form provides:
 simple bottom suction
 vapor form

555.05-0800 ARMHOLE CREASING AND TOUCH UP

Electropneumatic pressing machine with steam heated shapes, steaming and movable upper plate fitted on an arm having a lever movement and fixed lower plate.

The machine is featuring the following characteristics and is complete with:

- * adjustable pressing pressure and adjustable sponging height

- * electronic hand safety device
- * upper plate with stable locking

The shape is provided with:

- * single vacuum on buck

555.10-4037 SLEEVE STRETCHING

Electropneumatic pressing machine with steam heated shapes, upper premistoffa movable plate fixed on an arm controlled by a pedal and fixed lower plate. The pneumatic stretching device is fitted on the arm.

The machine is featuring the following characteristics and is complete with:

- * stable locking of the plate
- * steaming upper plate
- * steaming and vacuum lower plate
- * electronic safety hand device

The shape is provided with:

- * single vacuum on buck
- * steaming

555.10.5300

555.10.5300

Electro-pneumatic pressing machine, manual or automatic operated, with steam heated shape fitted on movable arm, with vertical approach. Top shape fitted with head safety device and independent shape for holding the collar and adjustable collar stretching shape.

555.10-5301 COLLAR STRETCHING

Electropneumatic pressing machine with steam heated shapes, upper premistoffa movable plate fixed on an arm controlled by a pedal and fixed lower plate. The pneumatic stretching device is fitted on the arm.

The machine is featuring the following characteristics and is complete with:

- * stable locking of the plate
- * steaming upper plate
- * steaming and vacuum lower plate
- * electronic safety hand device

The shape is provided with:

- * single vacuum on buck
- * steaming

555.17-3257 PRESSING MACHINE FOR PIECES AND SHOULDERS

Electropneumatic ironing machine equipped with:

Polished, electrically heated top surface

Lower floor covered, electrically heated and with vacuum system

Anti-repeat device

Spray gun to be connected to a water system

TG 99.20 Portable and Detachable Programming

Terminal with Graphic Display

555.37-9141 FLAT BONDING PRESS

Electropneumatic fusing machine with upper and lower shapes and head fitted on an arm with lever movement.

The machine is featuring the following characteristics and is complete with:

- * electrically heated upper shape covered by fluorglas fabric
- * vacuum bottom shape for parts loading. Variable vacuum flow

Technical features:

- * 7" Touch Screen TC7 with USB port
- * adjustable pressing pressure
- * electronic safety head guard device

555.37-9335 FLAT BONDING PRESS

Electropneumatic fusing machine with upper and lower shapes and head fitted on an arm with lever movement.

The machine is featuring the following characteristics and is complete with:

- * electrically heated upper shape covered by fluorglas fabric
- * vacuum bottom shape for parts loading. Variable vacuum flow

Technical features:

- * 7" Touch Screen TC7 with USB port
- * adjustable pressing pressure
- * electronic safety head guard device

555.41-7386/7387

EDGE AND LAPEL PRESSING

Two electropneumatic machines with combined right/left shapes for the simultaneous pressing of

edges and lapels (1 + 1 jacket).

Technical features of each unit:

- * movable lower shape assembled on trolley (forward/back) and reclining forward to facilitate the positioning of the lapels.

It is steam heated and vacuum in two separate chambers (lapels and edges)

- * side shape for the lapels ironing, assembled on movable trolley, which is integral with the lower shape. It is steam heated and vacuum

- * upper plate assembled on movable arm, with pneumatic control and composed by two shapes one of which can be excluded pneumatically for the ironing of single or double-breasted garments. The shapes are steam heated and vacuum; the anterior one can be pneumatically excluded and it is with vacuum to remove the excess of steam

- * independent adjustment of the ironing pressure in the upper shape (edges) and in the side shape (lapels) with proportional valves

- * sponging function in the lapels pressing and programmed air-blowing function in the lower shape

The machine is featuring the following characteristics and is complete with:

- * manual commands necessary for the preparation of the garment

- * security protection

- * 7" Touch Screen TC7 with USB port
